

## Data downloads

### Changes to Excel file format on the ABS website

In line with updating to more recent technology formats, the ABS will progressively transition to releasing Excel files in the .XLSX format. This means that time series spreadsheets in the suite of National Accounts releases will be progressively upgraded from .XLS files to .XLSX files.

While this change will improve usability, it may also require changes to automated macros or similar programs that users may have in place that call on the current file extension format.

For this product, this change will take effect from the December quarter 2021 release, to be published on 4 March 2022. Previously released data will not change.
